I'm at the end of my noose,
I've got nothing to loose.
I'm digging my own grave,
And thats the truth.
My self esteem is low and I'm so high,
And I dont give a fuck if I live or die.
Just bury myself in my self pity,
Can't even get myself to talk to me.
I'd kill myself, but it wouldnt help,
Can't someone put me out of my misery?
I'm going down I was born to die.
I'm going down, now I'll say goodbye.

Crash Crash
It's a hit, it's a band, it's a smash.

Crash Crash
It's a hit, it's a bang, it's a smash.

Throw in the towel its over for me,
I fell right out of the ugly tree.
I cross my heart and I hope I die,
But I sure fucking hope, if I even try.
To dumb to die, to smart to live,
Those are the choices that I'm left with
Eeny - Meeny - Miney - Mo
Bombs away motherfuckers 'cause here I go.
I'm going down I was born to die.
I'm going down, now I'll say goodbye
