The majestic black goat  
Seated in your gold throne  
Arise of the asleep ashes,  
Blown by the north's winds  
Sadogoat!!!  
Oh Belzebuth, rise of the cosmo's immensity!!!  
Your majesty is the king of the emptiness,  
Point us the precious scepter  
Of your beautiful left hand  
Blow your stormy sand  
In our shameful faces  
Oh, great God of the Flies,  
Flap your beautiful wings  
Magnificently in our direction, because we waited  
anxious for you,  
Oh Monarch of All Gods, we hoped you remember this  
splendor  
Hear our prayers and protect us eternally, take a bath  
with your fires and  
Furious howls, Oh Baphometric Beast!!!
