

## Malpractice "Circles In The Sand"

Visit "[Circles In The Sand](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Stranded on a distant shore  
In far reaches of the mind  
Afraid to open up the door  
To the inside

Time and space have no more meaning  
Where I am there is no way out  
The silent moment before leaving  
Way too loud

This is not how I want to be  
Not even close to what I'd planned  
Now you've taken it all out of me  
Left me all alone drawing circles in the sand

No return to the familiar  
Safe and soothing sanctuary  
Everything seems so malignant  
Engulfed by treachery

What you did I can't forgive  
Can barely understand  
Only reason for me to live  
My circles in the sand

This is not how I want to be  
Not even close to what I'd planned  
Now you've taken it all out of me  
Left me all alone drawing circles in the sand
