When your world's closing in  
And there's no place to hide  
And you're needing a friend to be there  
At your side

Send a message to me, I'll arrive and you'll see  
Whether you're right or wrong  
This is where you belong  
Give it a try and you'll see

Move in a little closer, baby  
You've got to keep me closer, baby  
Come in a little closer, baby  
Together we can make it happen, wait and see

When your troubles arrive  
Pouring down from the sky  
And your feelings get down  
And you don't know what to do

Give a holler to me, I'm the one that you need  
Reach for my helping hand  
Then you will understand  
How super fine it can be

Move in a little closer, baby  
You've got to keep me closer, baby  
Come in a little closer, baby  
Together we can make it happen, wait and see

Move in a little closer, baby  
You've got to keep me closer, baby  
Come in a little closer, baby  
Together we can make it happen, wait and see

Move in a little closer, baby  
You've got to keep me closer, baby  
Come in a little closer, baby
