All through the night  
I'll be awake and I'll be with you  
all through the night  
this precious time when time is new,  
oh all through the night today  
knowing we feel the same without saying

we have no past we won't reach back  
keep with me foreward all through the night  
and once we start the meter clicks  
and it goes running all through the night  
until it ends there is no end

all through the night  
stray cat is crying so stray cat sings back  
all through the night  
they have forgotten what by day they lack  
oh under those white street lamps  
there is a chance they may see

we have no past we won't reach back  
keep with me foreward all through the night  
and once we start the meter clicks  
and it goes running all through the night  
until it ends there is no end

oh the sleep in your eyes is enough  
let me be there let me stay there a while

we have no past we won't reach back  
keep with me foreward all through the night  
and once we start the meter clicks  
and it goes running all through the night  
until it ends there is no end  
keep with me foreward all through the night  
and once we start the meter clicks  
and it goes running all through the night  
until it ends there is no end
