How to begin  
Is more than I can plainly say  
From where I have been  
I know you carried me all the way  
To this place  
Oh, Lord  
I feel I want to somehow say this for you  
As long as I stand  
I'll stand with you against the rages of man  
Through changing sand  
With all that I am  
I'll praise the rock that saves the souls of man  
Forever to praise you  
I'll stand  
How can it be  
It's taken all this while to see  
Just what it means  
But now I understand that it was  
That it was all about you  
Repeat Chorus  
I can't say just what the future holds  
Or what will come one day  
But I believe that heaven hold the ones  
The ones who will stand and say  
Repeat Chorus
