Couldn't be mine if I wanted it to be
Try and try but I still can't make her see
That I could give her everything she'll ever need
If she'd just be with me

It was raining on that day we met
I fell in love but she hasn't fallen yet
Whatever she wants is exactly what she'll get
If she'd just be with me

I'm in love with Allison's heart
I'm in love with Allison's heart
In love with Allison's heart
But it's not in love with me
No it's not in love with me

She's a star that I just cannot catch
And I'm a fly caught in her web
She's a love that I just can't forget
So why can't I see

Couldn't be mine if I wanted it to be
Try and try but I still can't make her see
That I could give her everything she'll ever need
If she'd just be with me

I'm in love with Allison's heart
I'm in love with Allison's heart
In love with Allison's heart
And I guess I'll always be
And I guess I'll always be
And I guess I'll always be
