Storm is on it's way
We don't stand a chance against it
Blue skies to gray
Everything's consumed within it

But I'm not gonna hide
No, I'm not gonna hide
This time
This time

Each road is long
Every mile has an ending
Each right is wrong
Cannot end without beginning

But I'm not gonna hide
No, I'm not gonna hide
This time
This time

Storm is on it's way
We don't stand a chance against it
Blue skies, blue skies
Everything's consumed

But I'm not gonna hide
No, I'm not gonna hide
No, I'm not gonna hide
This time
This time
This time
