Cry your eyes out over me  
Don't ya see, don't ya see  
All the things they said are true  
I've been mean to you

I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
About you

You gave me all the love you had  
Made me glad, made me glad  
Go find yourself another boy  
I'll only make you cry

I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
About you

You gave me all the love you had  
Made me glad, made me glad  
Go find yourself another boy  
I'll only make you cry

I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know  
About you

I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know
