Paint me a window so I can see  
Over the rainbow inside of me  
I need  
How I need  
Crimson and clover, wagon and hay  
These are some sweet things, so lovely and gay  
I need  
How I need  
'Cause I'm not the strongman  
I am the one in need  
If I were a circus traveling around  
Would I be the high wire or the one falling down?  
I need  
How I need  
'Cause I'm not the strongman  
I am the one  
Just who I am and just who you see  
A strange contradiction won't let me be  
I need  
Sunshine and laughter and innocent eyes  
Love that stays after the good and the bad times  
I need  
How I need  
To show you the real me is the hardest of all  
Should I stay silent or risk the fall?  
I need  
How I need  
(chorus)  
And what isn't lovely blossoms one day  
Turns bitter snow to a sweet summer day  
And I need  
You need  
How we need  
How I need
