Verse 1

My heart wonders all around since the day I saw you
Your beautiful face tempts my heart to fall in love with
you
You have filled my mind with passion and
I know you love me
I could see me in your eyes

I'm awake all night
How I wish to see you right now
When I see you walk I melt down like Ice-Cream
Just glance at me once baby
And I could rise from the dead

Oh reena
I love you

Oh reena
I Love you

Verse 2

I'm drenched in the rain but I still feel dry
I stroll the streets without noticing anything coz I'm just
finding you
God, This love is making me insane

I'm awake all night
How I wish to see you right now
When I see you walk I melt down like Ice-Cream
Just glance at me once baby
And I could rise from the dead
Just glance at me once baby
And I could rise from the dead

Chorus

Oh reena
I love you

Oh reena
I Love you

Verse 3

I can't realize time now
The morning seems like the night
And the night becomes the morning
Every word you say, my heart goes thumping

There is not once you leave my mind
Even the sun becomes cool to quench my thirst
Why don't you girl

You changed my life all over
Killed me by your eyes
And cured me with your lips

Chorus

Oh reena
I love you

Oh reena
I Love you
