I've seen you
I know what you've been through
I hear your prayer
But do you hear my answer
I'm always here
I haven't turned my back on you
I want to help
But you have to let me in

Chorus:
Don't be afraid to let me in
Why can't you see how my heart explode without you
I love you
Don't be afraid, don't be afraid to let me in

Your tears are mine
I feel your pain in me
So far away
But still I'm right here by your side
Listen my child
I long to hold you in my arms
And let you cry
I love you just the way you are
