My mouth is firing out blanks
'Cuz I've got nothing left to say
No tools to rebuild the bridge that fell on to the road
and got in our way
And all the times you never said "I love you too..."

Are starting to come back
And I'm counting all the things that I didn't do,
Over again...
I'm sorry that I'm such a bad boyfriend
But you...
You didn't make this easier

I'm sorry I say I'm sorry so much
But its so hard for me to keep in touch
I'm running on a treadmill, ground and going nowhere
On and on the cycle moves
Without me, and without you
And I realize now the world doesn't need, You and Me,
To keep spinning...

'Cuz it spins round and round without us every time we
go to sleep
And broken hearts that lie in bed with promises still left
to keep
And you just stare at the ceiling, awake all night

On and on the cycle moves
Without me, and without you
And I realize now the world doesn't need, You and Me,
To keep spinning...
