

## Man Overboard

### "Wide Awake"

Visit "[Wide Awake](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It starts with an other day, alone in your heart  
There's gotta be another way for me to get to you  
This distance is real, my heart burns at the wheel  
There's gotta be another way for me to get to you

Pre-chorus:

I saw you leaning on the hood of my car  
We're not leaving here, we're not leaving here  
I need to be with you alone in my arms,  
I am dying here, I am dying here

Chorus:

When you're not home  
When you're not home  
We're laying wide awake  
We're always wide awake

It starts with another day, alone in your room  
I wish I had the time to stay  
But it's something I have to do  
This distance is real and you're dying to feel  
There's gotta be another way for me to get to you

Pre-chorus:

I saw you leaning on the hood of my car  
We're not leaving here, we're not leaving here  
I need to be with you alone in my arms,  
I am dying here, I am dying here

Chorus:

When you're not home  
When you're not home  
We're laying wide awake  
We're always wide awake  
I am dying here  
I am dying here  
It starts with an other day, alone in your car  
There's gotta be another way for me to get to you
