A hundred million miles from home
The only one left in the dark
Alone with everybody's thoughts
(Talking to me)

My only company the stars
The stars

Close your eyes It's all pretend
Let them know you're heavensent
And we are love we are love
Heavensent
You and me we're not like them
Search to find it's in your veins
And we are love we are love
Heavensent
And we are love we are love

Steamy window hungry eyes
And I just want to see the world
Help me out just one last time
(Reach out to see)
The only ones who hear this far
The stars

Close your eyes It's all pretend
Let them know you're heavensent
And we are love we are love
Heavensent
You and me we're not like them
Search to find it's in your veins
And we are love we are love
Heavensent
And we are love we are love

Close your eyes It's all pretend
Let them know you're heavensent
And we are love we are love
Heavensent
You and me we're not like them
Search to find it's in your veins
And we are love we are love

Heavensent
And we are love we are love
Heavensent
And we are love we are love
Heavensent
