Who do you love?

Please let me know

Who do you want?

Please let me know

I read tips from your eyes

I hear whispers from your lips

But always when I'm want to get you near

you change direction of your whole look

Who do you love?

Sometimes I think that I have lost you

then you change the direction of your look

Please let me know what's inside of your heart

you make me crazy...

Who do you love?
