### Verse I

I made the jump in 2000  
To see if I can climb up this mountain  
Every day seems like a thousand  
Even if I'm hit I keep bouncing

I don't like it, but it don't phase me  
I could complain but I keep playing  
The games crazy  
I live it daily, in choices no chances  
Suck your thumb or start standing  
Look up at the world, there's opportunities, girl  
The possibilities stir me up I'm willing to learn  
I'm just saying

I want it all, cash, clothes, and the gold  
I want it all, 1 wife, 3 kids and a home  
I want it all, God show me the road  
I want it all but won't forfeit my soul  
I want freedom

### Chorus

Free!!  
All I want is to be Free  
In your arms I'm gonna be  
That's where I'm free  
And I'm breaking down the walls  
Just set me Free

Oh, oh, ho, oh, ho, ho, oh  
I just got to believe that a, a, one day I'll be free  
uh huh, yeah

### Verse II

I got so many things that I could scream about  
But got too many dreams I can't leave them now  
In my struggle and stress I wouldn't leave the house  
In the hustle no rest I couldn't free myself  
I was clouded, I doubted, I felt surrounded  
Down in a cell, I needed counseling

I could speak to five thousand  
But I was still drowning help me out!!!  
Here's what I think about  
Giving up, no  
Dying young, no  
Lying tongue, no  
Maybe I should cheat, and no  
I read books for inspiration  
My constant motivation  
In the Bible found salvation  
My only purpose is permanence  
Make your mark and take courage  
I got freedom

Chorus

Free!!  
All I want is to be Free  
In your arms I'm gonna be  
That's where I'm free  
And I'm breaking down the walls  
Just set me Free

Oh, oh, ho, oh, ho, ho, oh  
BRIDGE

We all searching for peace, I just got to believe that  
a, a  
I just got a believe, one day I'll be free uh, yeah  
We all searching for peace, I just got to believe that  
a, a  
Uh uh, yeah  
Oh oh, oh.. singing...

Set me free
