Chorus intro:

Free to live free to love, free to get up
Free to get out and get up and move on, IÂ'm
Free to live free to love free to get up
Free to get out and get up and move on
From all the pain, all the times, I ever cried
For those who spoke lies IÂ'm gonna make it
From all the days, all the rage I felt inside
I know IÂ'm still alive not forsaken

Verse I

I used to want it so bad, I was so mad
Why can't I have a life like he has, autographs
Record tracks tour the globe and rap
It was a dream that seemed out of my grasp or
wouldn't last
Months passed, spent cash, all that I had
Had to borrow just to stay at my pad, and no gas
When dreams turn bitter and I know IÂ'm not a quitter
I repaint the picture and start with something clearer
I know what it's like yo, to work so hard, watch it fall
apart
After leaving your job
God's got your back it's free at no charge
Speak IÂ'm free and believe with your heart

Chorus:

Free to live free to love, free to get up
Free to get out and get up and move on, IÂ'm
Free to live free to love free to get up
Free to get out and get up and move on
From all the pain, all the times, I ever cried
For those who spoke lies IÂ'm gonna make it
From all the days, all the rage I felt inside
I know IÂ'm still alive not forsaken

Verse II

My road was long I choked and coughed
I froze and lost, I brushed it off
I wrote to God, Hear me

I got a problem here, can't you see I'm sinking
I'm shrinking, I'm tripping, slipping, searching for
some wisdom
Since time is ticking I've been thinking I'm a
sleeping victim
Incline my ear listen I was blind I'm here to switch it
This is when I call to you I'm crawling balling out
Falling up to walk with you I'm here to put it down
Anything I don't know, download to my soul
Let me be free so I can free those in pot wholes
Let me sleep breezy like the beaches in Tahoe
Helped me see clearly you perform the impossible

Chorus Repeats

Verse III

I've been on and off, searching for a better job
Hip hop gave me an out let to set it off
My God saves I'm free to just sing a song
I walk straight to goals as if my team won
Like the pentagon free to drop a bigger bomb
Figured my sisters and brothers they need a leader
son
Teeter tottered not wanting to bother
Children need a father not just payment with dollars
Home of the brave were known to rescue and save
In a moment we change, we can't settle for slave
Hold to the dream go big or go home
Freedoms in the heart mind, body & soul
