You're standing on the edge of disaster
Telling me you can't go on
I can hear your heart beating faster
Wondering what you did wrong

Broken inside, losing your fight
I know what it's like to break
So let me hold you through the pain

I know what you're fighting for
You're in the middle of a war
Even down on your broken road
There's still hope
You are not alone

Tell me what you're waiting for
Just let me open up the door
To give you hope
You are not alone
(You're not alone, you're not alone)
You are not alone
(You're not alone, you're not alone)

You are not a slave to the master
A prisoner inside your mind
I can't even see what you're after
But I will never leave your side

Never lose hope,
End of your rope
Staring death face to face
Will you stand or walk away

I know what you're fighting for
You're in the middle of a war
Even down on your broken road
There's still hope
You are not alone

Tell me what you're waiting for
Just let me open up the door
To give you hope

You are not alone
(You're not alone, you're not alone)
You are not alone
(You're not alone, you're not alone)

I'll light you up
When your flame is out
I'll pick you up
When your world is down
Don't be afraid, don't be afraid

I'll light you up
When your flame is out
I'll pick you up
When your world is down
Don't be afraid

I know what you're fighting for
You're in the middle of a war
Even down on your broken road
There's still hope
You are not alone

Tell me what you're waiting for
Just let me open up the door
To give you hope
You are not alone
(You're not alone, you're not alone)
You are not alone
(You're not alone, you're not alone)
