Im stepping out with a style like a face lift
To all the haters out there you got to change it
Its not ok, with me no, its not ok get on board
Who doesnt like a brand new pair of shoes?
Just got it cut showing off the hair due
Ive been here once before
Ive been there now no more
This is more than a fashion statement
This is me living out my patience
Pick out from a choice of favorites
What jeans, what shirt, holla mayhem
Amen to the man that made it
Im a rock it on the stage when im playing
Im fresh to step with the good looks got the hood shook
Take a good look stepping with the good foot, oh!!

Chorus:
So watch me turn it up loud
Im taking over the town
Im sticking out from the crowd
Im stepping out there!!!
I got the craziest style
That you can see it for miles
So paparazzi go wild
Im stepping out there, now!!!

Verse ii
