Intro:

To be on the top of the world

To be on the top of the world

Verse I

The stores are open people buying, people trying
climbing

To get to the top of the world, in this modern day war
and it's Simple Simon

I'm paying my bills she's taking some pills he's
drunk and behind the wheel

Actors acting, rappers rapping trapped in a drug of a
deal

Homeless or looking for meals the thief is still looking
to steal

You chasing the money or chasing you praying for
marriage, romancing your honey

I'm searching but where does it end, I'm leaning on
calling on a friend

I'm running, and running, for someone, to lend me a
hand or to help me ascend

Pre-Chorus:

To be on top of the world

Gotcha, gotcha ye girl

Its watch you wanted watch you want

It's what you're living for

To be on top of the world

Gotcha, gotcha ye girl

Its watch you wanted watch you want

It's what you're living for

Chorus:

Hey, Hey, got to believe in something

Hey, Hey, you got to climb to the top of the world,

Hey, got to believe in something

Show you the way, every day is a mission to be

On Top of the world

Verse II

Its 9 o'clock right on the dot and you'll be here to 5
Armies are marching on the fields we pray they all
survive
Peace on earth to all men, the stars they shine from
heaven
It's whatcha you want, it's what ye want, it's what
we're living for
A boy and girl they hold hands, I hope it lasts forever
It's never enough to find one that you love and not
just seeking self to pleasure
What is this mountain you climb? Is it for peace or for
pride?
The prize, the goals, the thoughts inside are motives
comes alive

CHORUS REPEATS

Verse III

Left, right, left, right, step into the lime light
Get into your car drive, everything is alright
It's alright, alright, everything is alright
Live like it's your last night, (LIVE LIKE ITS YOUR LAST
NIGHT)
I wanna live forever, while storing up some treasures
I wanna go to heaven and never be abandoned
I'm spending my time now renewing my mind to the
truth I climb so high
I find and apply to my life the joy I will lift up my eyes

CHORUS REPEATS
