do you still think of me
when you lay yourself to sleep
or am I just a bore
someone for you to ignore

I am something unreal

I haven't always been like this
I really am a hopeless optimist
I used to see the world as one

this life is a game
a silly game for us to play
and we're still looking for
a change

I am a dream
I am something unreal

I haven't always been like this
I really am a hopeless optimist
I used to see the world as one
