"Fantastic Idiot"

no need to think
shut down your brain
don't use your mind
follow the line
time stands still
only we move
being aware is what
makes us fools

when I'm by myself
I'm still a part of
you all
that's how it goes
I can not change
the roles

sometimes I wish
I could just let it go
forget everything
lay and do nothing

and I know there would be
no more pressure left
all of my thoughts flying
freely in my head
