Visit "[Wasted](#)" on MotoLyrics.com

I get high on pesticide, you won't die cause it tastes all right, it's not the thought of it, it's just the look of it so sell me something I don't need. You can change but it still remains empty homes on a cardboard face.

It's not the politic, that's just a bad of tricks so tell me something that

I don't know.

Chorus:

lie down we're all wasted keeping me out but I can't change it, lie down

we're all wasted, keeping me out but I can't change it.

I get tolled on a free range road, open day on a fast rood roll, it's on

the back of it the list of additives that keep you moving until you stop,

look out

Chorus:

lie down we're all wasted keeping me out but I can't change it, lie down

we're all wasted, keeping me out but I can't change it.

my life so uneventful, everything is just a waste of time, my life so

uneventful, everything you see has got to be denied.

Chorus:

lie down we're all wasted keeping me out but I can't change it, lie down

we're all wasted, keeping me out but I can't change it.
