Dirty in the ground is what I need
I got another one to tell you
and another one to make you believe
pity in the grass tried to be
the one you needed when I told you
that you wanted something bigger than me

I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want
and I know they don't want me to stay

'cause you are not alive
when I need you
I need it quickly
in case you never know

I can't play where I'm not supposed to anyway

dirt in the ground is what I see
I need another reason why
I need another reason, tell me to breathe

the dirtier the sound, the best I breathe
I tried to do it all for you
it didn't do anything for me

'cause I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I've got friends in all the right places
I know what they want
and I know they don't want me to stay

and you and I will find
that when I need you
I need it quickly
in fact, you'll never know

I've got friends in all the right places

I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want
and I know they don't want me to stay.
