"Left Behind"

Visit "[Left Behind](#)" on MotoLyrics.com

Another day spent on the road
I'm hoping that somebody knows
The weight that has been lifted
From the life i have left behind

Loud clubs people stare
All the while i'm sitting here
Just dreaming about where i'll be
If i ever make it out of here

Drive on and on the road gets longer as we go
Lie to the crowd
Tell them that you're someone else
Find the way out we've got to pack our things up now
Go we're moving on another city another dawn

We've only just begun
Another gig and much more fun
To come as we're conflicted
With thoughts of what we left behind

Packed rooms sleeping scared
Wishing that i wasn't here
But loving every minute
Of the happiness that it's bringing

Another day spent on the road
I'm hoping that somebody knows how much i have
been missing that home that i have left behind

Loud clubs people stare
All the while i'm sitting here
Thinking about where i've been
Am i strange to hope it never ends
