How do I keep dying just for you?
You're a dirty word
My mother washed my mouth for using
It's funny how we complicate the two
You're a sacred heart
If I've ever felt one

The aeroplane is flying towards the sun
And you're another reason I can cut my ties with
breathing
I carved your name in my arm just for you
You're a dirty love
If I've ever felt one

You're a dirty love
If I've ever felt one

I've got a sacred plan
For a Catholic school boy
You've got a sacred heart
For a Catholic school girl
