Did you see her wink her eye
Flash a smile at every guy
Red lipstick eyeliner
Sex object sex object

Short skirt legs for a mile
Always wears the latest style
White teeth and perfect hair
Sex object sex object

Do you know her do you want her
Do you think you've got a chance for romance
Do you love her do you lust her
Do you want to take a chance on romance
She'll make you and she'll take you
She'll take you and she'll make you
She'll make you and she'll break you

Did you see her look your way
Lick her lips then turn away
Flash a little of her leg
Sex object sex object

Do you wanna play her game
Do you wanna know her name
Do you just wanna piece of fame
Sex object sex object
