"Sleep"

You little thing my little thing you're bringing me no
peace
My little one been giving me no rest
I've loved you all the ways that i know how
I've loved you all the ways that i can now
And i will come when you call and you will sleep while i
cry
Sweetheart
All that i am all that i have is yours
All of my love all of my life is yours
To see you in my arms is all i know
I've missed you in my arms is all i know
And i will come when you call and you will sleep while i
cry
Sweetheart
You've chosen my life
All of me
Fill up my life
And i will come when you call and you will sleep while i
cry
