"The Neighborhood Is Bleeding"

I heard the neighborhood was bleeding
Pressed shirts and raincoats for the cause
5,000 terminated papers
Can you read them if you're sleepin'?

'Cause formulas are for nothin'
If I can barely get to sleep
Well, I can be lonely if she's happy
After all, oh, oh

I heard that I was close to dyin'
I.V.'s and dirty drips for the cause
5,000 termination papers
Can you read them, I can see them?

'Cause diagnostics are nothin'
Can you figure out a cure for me
That can finally set me free
After all?

I'll find a way out
I'll find a way out
I'll find a way out of here
Do you believe me? Just watch me

'Cause pillowcases are somethin'
For when reality gets obscene
I'm filling feathers around my teeth
After all

Are stars still dyin' for nothing?
It isn't fair but it's reality
I need a miracle in my veins
After all, oh, oh
