I miss the town i was born in
Fast food and the all night stores
Burger king and frozen pizza
Tell them i can't take it no more
I want to go to my apartment
I wanna walk down my old street
I wanna go to 7-11
Find me something i can eat

Home i wanna go home, i wanna go home, i wanna go
home

I wanna see the stars on sunset
See my name in the hollywood hills
Spend the night with my oldfriend
Forget to pay electric bills

I wanna watch the TV all night
Watch a movie on channel 5
Maybe even call my parents
I don't think they know i'm alive

Home, i wanna go home, i wanna go home, i wanna go
home

I'm gonna buy myself a new car
I'm gonna buy one get one free
Drivin' down some 4 lane highway
In the land of oppurtunity

They say these are really good days
They say the days are really strange
But i don't care that won't upset me
Got my little home on the range

Home

I wanna go
