I pulled a loose thread  
I gathered you in  
Discovered I could  
A pivot for your sun

You invited me in  
As if it's nothing  
We tread on old ground  
As if it's nothing now

It's like I hardly see the sky some days  
It's like you hardly said a word  
It's like I hardly see the sky someday  
And i'd do better if I turned my head  
Knowing you did

I wouldn't be here  
If you could have said no  
I wouldn't have come here  
If ever I had known

It's like I hardly see the sky someday  
It's like you hardly said a word  
It's like I hardly see the sky someday  
And I'd do better if I turned my head  
Knowing you did

Knowing you called  
Knowing you held her  
Knowing you kissed  
Knowing you did all this

It's like I hardly see the sky some days  
It's like you hardly said a word  
It's like I hardly see the sky someday  
And I'd do better if I turned my head  
Knowing you did.
