"This Time Last Year"

Visit "[This Time Last Year](#)" on MotoLyrics.com

When when I met you
Evidently
You knew
And then if your kiss
I was full
Evidently
Since without you
Unfolding

This time last year, you were here
This time last year, you were here
This time last year, you were here

Said I miss you
I cannot choose
Tell me you should often do something
Without you here i'm into
Cut out in two
Since without you
Unfolding

This time last year, you were here
This time last year, you were here
This time last year, you were here

In all my innocence
I'm running 'round
In circles you won't allow
Against your bittersweet indifference

I'm running 'round

This time last year, you were here
This time last year, you were here
This time last year, you were here
