### "The Last Time Infected"

Visit "[The Last Time Infected](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's the fame that holds you in vain  
but in your letter it's playing your game

It's so hard when love gets dark, in the summertime  
and I got a bird, here in my ear,  
telling me stories all made by fears loose your control  
when you get old, just pray

And I just got it all  
from Mr. feeling wrong with money  
and I'm gonna tell you one thing now...

The last time infected me 2x  
The last time infected me so good  
The last time infected me 2x  
The last time infected me so good

Now it's cold and you're always involved  
into this song all made by code  
isn't it sad, oh so sad  
when I've written it

A tutor of mine, coverover  
laying all sleeping in the sand,  
isn't it hard when love gets hard,  
in the summertime

And I just got it all  
from Mr. feeling wrong with money  
and I'm gonna tell you one thing now...

The last time infected me 2x  
The last time infected me so good  
The last time infected me 2x  
The last time infected me so good

oh so good, oh so good, oh so good, oh so good, oh so  
good, oh so good...
