I shut the light cus it bugged my mind
insane
She tried to hurt in the puring summer
rain
I cut her angle and attacked her heart
with soul
It's in her skin, the lack of sin I
know

She walks she talks she sleeps in the
dark
She takes your hand in the jungle by
the waterfall

When I'm week she's in the best of
moods
She's hanging out with all kinds of
strangers with her broken shoes
She's well dressed and behaves like
all the rest
She tends to try to unlock my cell but
she'll never ever find my nest
There's no questions like it's
understood

She walks she talks she sleeps in the
dark
She takes your hand in the jungle by
the waterfall

She's not stron! Why? I don't give a
damn!
Fool! She's with me, when I don't need
the sex she's on her bed
How can I loose her when she's all
that i ever got?
Behind her window there's a lover who
I know I shot
Can you imagine what it's like to be
all alone?

She walks she talks she sleeps in the
dark
She takes your hand in the jungle by
the waterfall
