Take it on ease
Whatever is done Is hit by your guard and washed by
the sun
Doctor you know that I cannot behave like I used to do

Wild as the ox
Brave as my glove, Red as the flood, who's floating in
us
Doctor you know that I cannot behave like I used to do

And you start when I demand
And you fall on my command
Cus all those girls and boys
With Jags' and Roys' they all like to rush for a while

Cus we're hit by all the elder farts
And we're hit by all the throwing darts
And we're hit by all the colored girls who go, La La La
And we're hit by all the handy boys
And we're hit by all the throwing toys
And we're hit by all the colored girls who go, La La La

Muscles to will
hardcore to crace fear when it's real, fear face to face
Doctor you know that I cannot let them have the victory

And you start when I demand
And you fall on my command
Cus all those girls and boys
With Jags' and Roys' they all like to rush for a while

Cus we're hit by all the elder farts
And we're hit by all the throwing darts
And we're hit by all the colored girls who go, La La La
And we're hit by all the handy boys
And we're hit by all the throwing toys
And we're hit by all the colored girls who go, La La La
