"Brain Storm"

Follow me all over/where you are there is no life/always
you the only/oooh you...! can hear/me/save my
brain/save my death/and now.../tell me if you now can
me fly/you now can cry and give me your light/now I
stay in my creeper.../I remember shadows life/every
night they come alive/always you the only one/always
you can, only the end.../now, if you want kiss my stormy
brain/do you know where my black rain ends...?/listen
to the roar of the stormy sea/feel how my soul now is
frozen breeze/my quiverin' voice bewitched by the
wind/now I fell under these green leaves
