I know the hero/I know the omens turn to fight/losin'  
forever your self cry and burnin'/high/Hell and Heaven,  
open the doors over the/light/lookin' for somethin' that  
can take away/your pride/I know the hero/I know the  
castle burns on fire/come and help me/now that your  
faith can save my life/now give me your light, you're  
the hero of my/mind/Angels are cryin'/while their wings  
are flying high/towards the twilight/where they try to  
find their sight/A universal mind.../ever and ever  
comes to life,/can you forever.../ever and ever come  
inside?/I know the hero/I know the castle burns on  
fire/come here and save me/now that your light can  
rape my mind/come here and help me...you're the hero  
of/my time/I know the hero/my mind and my heart  
burst on fire.../come here and save me/you're the hero  
of my mind...
