Give your heart and soul away
Never doubting if it's true
Is there no price that we won't pay
For A Simple I Love You

After all the pride is gone
Hope has all but fallen through
We can still make ourselves hold on
To A Simple I Love You

There's a time if love's to say
When no other words will do

And all it takes to clear the way
Is A Simple I Love You
There's a time if love's to say
When no other words will do
And all it takes to clear the way
Is A Simple I Love You
When no other words will do
Say A Simple I Love You
