(Karen Brooks - Randy Sharp)

Give your heart and soul away  
Never doubting if it's true  
Is there no price that we won't pay  
For a simple I love you.

After all the pride is gone  
Hope has all but fallen through  
We can still make ourselves hold on  
To a simple I love you.

There's a time if love's to say  
When no other words will do  
When all it takes to clear the way  
Is a simple I love you.

--- Instrumental ---

There's a time if love's to say  
When no other words will do  
When all it takes to clear the way  
Is a simple I love you.

When no other words will do  
Say a simple I love you...
