"The Whispering Wind"

Visit "[The Whispering Wind](#)" on MotoLyrics.com

When the Whispering Wind blows on by
Autumn leaves start to fly
When the Whispering Wind blows on by
What'll I do to keep me warm?
When it comes, winter storm
What'll I do to keep me warm?

What'll I do when you're away?
And the fire is gone, the skies are grey?
How I wish that I could make you stay

Please don't go, I need you so

The Whispering Wind told a lie
Broke your heart, made you cry
Cause you believed the Whispering Wind
What'll I do when you're away?
And the fire is gone, the skies are grey?
How I wish that I could make you stay

Please don't go, I need you so
