(Pat McLaughin - L. Russell Brown)

When the whispering wind blows on by
Autumn leaves start to fly
When the whispering wind blows on by
What'll I do to keep me warm
When it comes winter storm
What'll I do to keep me warm.

What'll I do when you're away
And the fire is gone the skies are grey
How I wish that I could make you stay
Please don't go I need you so.

The whispering wind told a lie
Broke your heart made you cry
'Cause you believed the whispering wind.

--- Instrumental ---

What'll I do when you're away
And the fire is gone the skies are grey
How I wish that I could make you stay
Please don't go I need you so...
