(Pat McLaughin - L. Russell Brown)

Who, who will it be, how will I know
When will I see
You light up my dreams
I can't stop wondering who.

Who, who will it be, who just like me
Needs someone too
Love them just like I do
I can't stop wondering who.

Can't wait forever for love
To come out of the blue
I could hold on and get by
If I only knew.

Who's longing to find this heart of mine
Who could it be
To help me see my way through
I can't stop wondering who.

--- Instrumental ---

Can't wait forever for love
To come out of the blue
I could hold on and get by
If I only knew.

Who, who will it be, how will I know
When will I see
You light up my dreams
I can't stop wondering who.

I can't stop wondering who...
