Who, who will it be?
How will I know? When will I see?
You light up my dreams
I can't stop wondering who?

Who, who will it be?
Who just like me, needs someone too?
Love them just like I do?
I can't stop wondering who?

Can't wait forever
For love to come out of the blue
I could hold on
And get by if I only knew

Who's longing to find
This heart of mine? Who could it be?
To help me see my way through
I can't stop wondering who?

Can't wait forever
For love to come out of the blue
I could hold on
And get by if I only knew

Who, who will it be?
How will I know? When will I see?
You light up my dreams
I can't stop wondering who?

I can't stop wondering who?
