(Goodbye sun, goodbye moon  
I'm coming to where you are soon  
Take a picture, make a wish  
I've never felt as sure as this)  
I've got a fetish, love is pathetic  
And the world's about to end.  
I'm up in the attic,  
With Dad's automatic  
And a note writ on my hand.  
I've got sisters and brothers  
Same as my mother  
Won't get off my case  
In the papers tomorrow  
They'll fake all their sorrow  
Then leave me here to waste  
Rest me in pieces now, and cauterize your love for me  
(your love, your love)  
Rest me in pieces now, and vaporize my history (my  
history)  
Now take another stab at my heart.  
I'm feeling sorry, nobody wants me  
I'm gonna eat some steel  
Adrenaline's peakin'  
Logic is tweakin'  
Life's never felt so real  
I'm so sick of Al Qaeda  
They're entertainers  
Playin' on people's fear  
So I'm fucking the system  
I'm not a victim  
I'm getting out of here  
Rest me in pieces now, and cauterize your love for me  
(your love, your love)  
Rest me in pieces now, and vaporize my history (my  
history)  
Now take another stab at my heart.  
Take another stab at my heart  
Take another stab at my heart  
Now fight for my body  
Fight for my body  
Rest me in pieces now, and cauterize your love for me  
(your love, your love)

Rest me in pieces now, and vaporize my history (my  
history)  
Now take another stab at my heart.
