Fear on the street panic in the alley, you mustn't walk
alone tonight,
Blood on the wall like a river cuts a valley, the victim is
an awful
Sight.
(chorus)
There's a Killer On The Loose, knows just what he's
doing, he's built
Around a heart of fire. Killer On The Loose, lurking in
the shadows.
Nobody knows exactly how he looks but his picture's
stamped on
Everyones mind. You never see his face, attacks from
the back, you
Better watch out behind.
(repeat chorus)
