"Necromancer"

I breed the beast inside of me
Fools believe his lies I shan't believe
God is lost, you're blind, your god is dead
Satan has his hands around your neck

Killing Christians left and right
Laughing in god's face
I've got to get my anger out
Someone's got to pay
Burning crosses, burning books
The Devil's on the loose
People dying everywhere
God is in the noose

Fall from grace my home eternity
Ashes where a church once used to be
Bow obey I will reward thee
Burn their church and laugh now come with me
Now the end, a sign, commence the feast
Work complete I shall summon the beast
