"No Matter What"

Time has come
It's do or die now it's all or none
No turning back
I'm not done
What's done is done yes the time has come
I've got to move
This is real
I'm coming through with resolve of steel
I've got to prove
What I feel
Is not a dream, no, it's coming true
I will realize my goals deep within my soul
Visualize all that I need and take control
Utilize my strength my sweat my tears my blood
In my mind's eye this is happening No Matter What

Against resistance No Matter What
On a mission No Matter What
Against resistance No Matter What
It's my vision are you hearing me No Matter What
