Coo coo u

Coo coo u
Coo coo u
I think you're coo coo
Coo coo u

Coo coo u
I think you're coo coo
Coo coo u
Coo coo u
I think you're coo coo
Coo coo u

How did you get so coo coo
How did you?
How did you get so coo coo
How did you?

How did you get so coo coo
How did you?
How did you get so coo coo
How did you?

They say it's a fact that your head is cracked
(I think now you are loco)
You have blown your stack, you're a maniac
(I think now you are loco)

I just heard the news that you blew a fuse
(I think now you are loco)
You're a paranoid and your head's a void
(I think now you are loco)

How did you get so coo coo
How did you?
(Look in the mirror)
How did you get so coo coo
How did you?

You are in a fog since you slipped a cog
(I think now you are loco)

They will set you free with lobotomy
(I think now you are loco)

Your cerebral vault has a single fault
(I think now you are loco)
It is quite well known you've become a clone
(I think now you are loco)

How did you get so coo coo
How did you?
How did you get so coo coo
How did you?

(What's on the news?)
Seen any good games shows lately?
(I like the news)
I like game shows
