"To You"

To you my very heart and soul
I give to you
You never know of giving
Until you give yourself

I do, to you
To you

The very life, I live I give to you
(Very life I live)
My deep devotion
My every thought and feeling, too

I give, I do
(I give to you)
All my love, all my life to you

I've never known a day of strife
Since you entered my life
My care and my sorrow had me every way
Before you came, I was tryin'
But my livin' felt like dyin'

To you I give all of my heart and my very soul
The life I'm livin'
Yes, I'm giving everything to you
It's true really true
You know that it's true

All my love, all my life I live
I want to give to you
